

REPORTS

STAR Reading reports give you more information about your students' tests and your STAR Reading classes and teachers.

Renaissance Place and STAR Reading Reports

Renaissance Place Reports

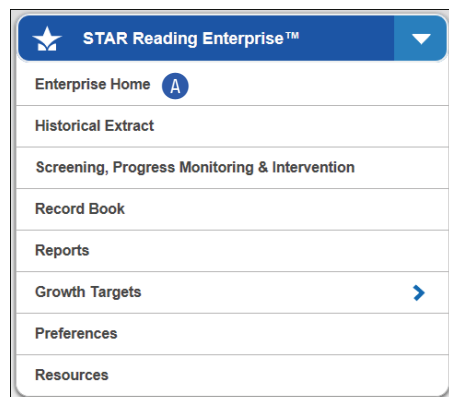

When administrators and teachers click **Consolidated Reports** **A** under Renaissance Place on the Home page, they can generate reports with data from more than one Renaissance Place product. For more information, see the *Renaissance Place Software Manual*.

STAR Reading Reports

When you click **Reports** **B** under STAR Reading, you will open the Select Report page and can generate reports about your students' STAR Reading tests.

There is often more than one way to begin printing a report; alternate instructions are provided where appropriate.

STAR Reading Enterprise Reports

Some reports are only available to STAR Reading Enterprise customers where linking has been completed (and, in some instances, to customers in states participating in the Council of Chief State School Officers [CCSSO]/Renaissance Learning R&D consortium). If your school has access to these reports, they will be listed along with the others on the Select Reports page.

You will also be able to access these reports from the STAR Reading Enterprise Home page. Click **Enterprise Home** **A** under STAR Reading Enterprise on the Home page.

Using STAR Reading Reports

Check for Adobe Reader Before You Generate Reports

Supporting software must be installed so all users of the computer can use it. For more information, see “Software Requirements” on page 17.

With the exception of the Growth Proficiency Chart (page 119) and the Longitudinal Report (page 144), STAR Reading uses Adobe Reader to generate reports. When you click **Reports** (under STAR Reading on the Home page), STAR Reading checks for this software.

If your computer does not have the software, the Software Requirements page will open. When this happens:

1. Contact the person who manages the computers for your school or district to find out if you have the rights required to install the supporting software for *all* users of the computer (not just you).
2. If you have these rights, look at the Action column. Click the **install Version** link A for Adobe Reader. You will receive instructions on where to download Adobe Reader.
